THE SMALL PRINT

Ordering the a DVD copy is 60€ for the first one, every further copy in the order goes for an additional 15€. So for you to save cost, order only once! You may change your order until we have packed the items.

An extra web upload is 60€, you can then download the file and put it onto DVD yourself. However, a download from the web is never as good a quality than our own DVD's, and whilst our DVD's have chapters to which you can jump, this is not possible with a downloaded file.

The DVD's in this offer are with standard print, but you can have them personalised, too. Personalised means, the DVD and the cover come printed with a picture of you on your wedding day. Price: €80.
